Faisal Rehman

Software Engineer | MERN Stack Developer
faisalrehman6696@gmail.com | +923128077934 | LinkedIn: faisalrehman | Johar Town, Lahore

EDUCATION

The University of Lahore ***2020-2024***
B.S. in Software Engineering

EXPERIENCE

MERN Stack InternShip
Eziline Software House — Onsite
Sep 2024 – Jan 2025

- Collaborated with a team on real-world full-stack web applications using the MERN stack.
- Contributed to database modelling, backend APIs, and frontend integration using MongoDB, Express, React.js, And Node.js.

APPWORKS (Pvt.) Ltd. — Onsite ***Sep 2025 – Nov 2025***

- Participated in UI/UX design implementation, focusing on responsive layouts and user-friendly interfaces.
- Collaborated with a team on real-world full-stack web applications using the MERN stack.
- Contributed to database modelling, backend API development, and frontend integration using MongoDB, Express.js, React.js, and Node.js.
- Assisted in integrating Stripe payment functionality for secure online transactions.

PROJECTS

E-commerce-app

- Developed a complete full-stack **MERN** e-commerce application with role-based access and use of **Nodemailer**, including an admin dashboard and user-facing features such as product browsing, cart, and order placement.
- Integrated international **Stripe** payment processing for secure online transactions and built a fully responsive, modern UI/UX using React.js. Live on AWS.
  Link: http://13.60.217.156

Ehsas-hub

- Developed with React.js, Node.js, Express, and MySQL for managing book donations.
- Enabled users to request/donate books, while admins can approve/reject accounts (Needy, Donor, and Volunteer).
- Integrated **Nodemailer** for automated email notifications upon signup and account status changes.

Blog Post Platform

- Built a full-stack blog system using **React.js, Node.js, Express, and MySQL.**
- Enabled users to read and search posts, while admins had full **CRUD access** for managing blog content.

Portfolio

🌐 https://portfolio-ivory-one-84.vercel.app

- Designed and developed a personal portfolio using **React.js** showcasing projects and skills.
- Implemented clean layout, animations, and reusable component structure for scalability.
